UCSD-Extention

Bootcamp Projects:

Web Development

PROFESSIONAL PORTFOLIO

As part of our career growth in web development, it is important that we create a professional website that describes who we are and what we can do.

Github URL: https://github.com/analuna01/ProfessionalPortfolio-hw7
Deployed URL: https://analuna01.github.io/ProfessionalPortfolio-hw7/

OUTDOOR ITINERARY

This was a group project in which we created an application that would allow the user to plan an outdoor adventure by saving their activities in an agenda while having access to a search engine that would allow them to search for a restaurant or recreation in a given city.

Github URL: https://github.com/christ-ine/outdoor-itinerary
Deployed URL: https://christ-ine.github.io/outdoor-itinerary/

WEATHER DASHBOARD

The goal for this project was to create a weather dashboard that included a search section where the user can look for a city and the current weather conditions would display along with a five day forecast.

Github URL: https://github.com/analuna01/WeatherDashboard-hw6.git
Deployed URL: https://analuna01.github.io/WeatherDashboard-hw6/
